### **If in the previous calendar year no pesticides in Austria were placed on the market or exported, please send an appropriate information by fax or e-mail.**

Obligated to notify is the one who placed the product on the market for the first time in Austria. If the authorisation or approval holder himself does not place the plant protection products on the market, he is asked to clarify with the distributor(s), who will inform the Federal Office for Food Safety about the quantities of active substances. It must be ensured that all quantities are declared just once. If the notification will be made by the distributor(s) please inform us which company/companies will make it.
